

### **Oral presentations**

- The duration of formal oral presentations is 15 minutes, with Q&A.
- Oral presentations should be in Power Point format.
- A Windows-based PC will be available in each room at the conference venue for speakers' use during their presentations.
- Speakers should upload their presentations to the venue PC at least 10 minutes in advance of the session that they are presenting in.

### **Poster presentations**

- Each presenter will be given a poster area of 3 ft wide by 4 ft tall for mounting and displaying the poster. Authors are responsible for bringing their poster to the conference venue and for mounting the poster before the sessions. Push-pins will be provided.
- Note that the poster dimensions encourage vertical orientation for the posters, rather than horizontal (though presenters are free to choose their own orientation).
- The presenter may set up their poster the morning of Tuesday, March 31. Your material must be removed by the end of the conference. Any material that is not removed will be recycled.
